NANTON STREET LACOMBE

**PRINCIPAL CARRUTHERS
RESIGNS POSITION.**

Has Accepted Splendid Offer
from White Horse, Yukon,
School Board.

Citizens of Lacombe will learn
with regret that N. E. Carruthers,
for several years principal of our
Public School, has decided to
sever his connection with that in-
stitution to accept a similar posi-
tion at White Horse, Yukon.
The White Horse Board has made
Mr. Carruthers a very flattering
offer, viz., \$2400 a year. Mr.
Carruthers will take charge of the
White Horse school on Sept. 1st.
Since taking charge of the La-
combe school Mr. Carruthers has
brought it to a very high standard
of efficiency, and no better proof
of this is needed than the large
percentage of successful students
in the departmental examinations.

Aside from the school, the loss
of Mr. Carruthers will be severely
felt in Lacombe. Largely through
his efforts the Agricultural So-
ciety, of which he is secretary-
treasurer, has been made one of
the most successful institutions of
the kind in the province. He has
been untiring in his work in this
connection, and his place will be
hard to fill. He was also promi-
nently connected with other or-
ganizations in town—in fact, as
he is a willing worker, he had very
little spare time on his hands.
Mr. Carruthers, it is hoped, will
be followed by the best wishes of
every citizen.

The School Board is taking
steps to fill the vacancy on the
staff immediately.

Mrs. J. W. Johnston and her
niece, Miss Laird, left last week
for a visit to the Pacific coast
cities. They will visit the Seattle
Exhibition before returning.

The Red Deer News would like
to see the Agricultural College at
Medicine Hat, in the centre of the
C.P.R. domain. We rather expect-
ed that great moral weekly to favor
Lacombe as the most appropriate
site.

Cigars, tobaccos, pipes, cigar-
ettes, and all smokers' supplies, at
The Athletic Cigar Store—F. Mo-
Leary.

Look About You

You may see objects plainly—
perhaps, yet at the same time
be subjecting your eyes to
harmful strain. You may need
glasses, and yet not know it.
If you are now wearing glasses
are you getting all the help you
ought to get from them? Better
make sure. Eye examination
is not a tedious or troublesome
process, and we will give you
straightforward and honest ad-
vice. Only when glasses are
absolutely necessary do we
recommend them.

LACOMBE

Lesson VII. — Third Quarter.

For Aug. 15, 1909.

THE INTERNATIONAL SERIES.

Text of the Lesson, Acts xix, 8-28.
Memory Verses, 19, 20—Golden Text.
Acts xix, 17—Commentary Prepared.

Rev. M. M. Beane

Christy, 1860, by American Press Association, 11.

On the return of Paul from his first journey he landed at Caesarea, and he was met by the company of believers headed by the household of Cornelius and Philip and his four daughters. We can imagine the joy of the household of fellowship with those, for at another time we had him and the company spending several days at Philip's house. It is not surprising that Paul was anxious to hear from the household about this great journey and the open house in Europe, but the record simply does not tell us whether the household of Philip may have included a rehearsal of the Lord's coming to Europe. During his stay at Antioch he would not fail to hear from the household of Philip, who accepted the Lord Jesus and all of the marvelous grace of God. This brings us to his third journey. Concerning the beginning of which we have no record, we know that Paul went of Galatia and Phrygia in order strengthening all the disciples (xxviii, 23). He has told us in his epistles how he has been able to strengthen them. He has strengthened them. So Ephe. iii, 16-19; 1 Th. 10, 11; 1 Tim. 1, 2. There is no mention, no strength, no victory, no power, no grace, no love, no peace, and Spirit and by virtue of His precious blood.

When Paul left Philicia and Aquila and Priscilla on the return from Corinth he did not know that he was still providing teachers for a man as ready mighty in the Scriptures as Paul (xxviii, 22-23). If increased knowledge of the Lord is given to any of us it is that we may teach others where we are. Blessed that we may be a blessing to

The Lord was for His redeemed ones. When Paul reached Ephesus on the third tour he found disciples who had been taught by Apollos, evidently before he had been further instructed by Priscilla and Aquila, knowing only the baptism of John. When Paul had instructed them more fully they received through him in the name of the Lord Jesus a special filling of the Holy Spirit and spoke with tongues and prophesied (xii, 4).

It seems quite clear that when Apollos and Priscilla heard Apollos in the synagogue they did not attempt public confession, but with him and his

and loving tact took him privately, probably to their home, and expounded unto him the way of God more perfectly. Then it may have been that Apollo thought better to begin elsewhere with the new light he had re-

ceived rather than where he would have to confess that he had not previously been fully taught in some things. That would have been human weakness, but this is only a suggestion. As to Apollo's two instructors

they were only humble tentmakers and, while doubtless glad to help anyone who were willing to be helped, they did not feel called to act as public teachers.

In the synagogue at Ephesus, talking to them from the Scriptures concerning the kingdom of God (verse 8). So this great topic elsewhere in the Acts in chapters 1, 3, 6, viii, 12; xiv, 22; xv, xxviii, 23, 31 and from other places.

It and then let the Lord use you to help others to see that the kingdom of God is nothing less than the will of God done on earth as in heaven and that when it is fully come a righteous

Israel shall be the earthly center, blessing to all the nations on the earth and Jesus, as son of David, shall occupy the throne of David at Jerusalem (Acts II, 30; III, 21; Luke I, 31-33; I

This is the age of "the mystery." The kingdom being postponed, the church, the body of Christ, is being gathered to reign with Him when He shall turn in His glory. To this end should come the great awakening.

should carry the gospel everywhere, having the ambition which Paul had to preach Christ specially to those who have not yet heard of him (Rom. 1:20), and when the unbelievers resist and talk against "the way" then endeavor to win them to the same.

some other door in the same town go to another city or town. When Jews resisted, Paul continued teach in Ephesus, but at another center, the school of one Tyrannus," and two years he continued, so that

they which dwell in Asia heard word of the Lord Jesus (verse 10).
was in Ephesus at this time about three years, warning people night and day and oftentimes with tears (81). This was the Lord's time to

xvi, 6. His time had not fully come. When we are fully yielded and can truly say "My times are in thy hand" (v's. xxxi, 15) we will rest in the Lord and dwell with Him to open our souls to Him shall please, having full con-

some reason wrought in a special and unusual way upon the bodies of people through Paul at this time (verse 11, 12), probably because the devil's agencies were working specially

But the Lord exceeded all the powers
of the adversary, the name of the Lord Jesus was magnified, the word of God grew mightily and prevailed, and there was what might be called a \$50,

The usual crowd of small boys was gathered about the entrance of a circus tent in a small town one day, pushing and trying to get a glimpse

the interior. A man standing near the entrance watched them for a few moments, then walking up to the ticket-taker, he said with an air of authority:

"Let all these boys in, and co-
ther as they pass."

The gateman did as requested, when the last one had gone he turned and said: "Twenty-eight, sir."

"Good," said the man, smiling as he walked away, "I thought I guessed right."

POWER COMPANY SHUT OFF LIGHT.

The Blindman River Electric Power Co. Will Remove Plant.

Owing to adverse circumstances the Blindman River Power Co., which has been supplying Lacombe with light for the past two or three years, closed down on Saturday last, and henceforth our homes and stores will be lighted by the old stand-by—coal-oil.

The Company will probably cut off their poles at the ground level, coil up their line, and seek some other location.

The chief obstacle in the way of the Company is the fact that their dam has given way. Badly constructed to start with, it has been continually getting worse, until now it cannot hold back enough water for the needs of the plant.

It is to be regretted that the finances for the construction of a new dam are not forthcoming. At one time the Company had the money in sight, but just at the time the town's writ to cancel their franchise, scared off the would-be investors.

Local and General

The W. E. Lord Co.'s business at Lacombe has been sold to Mr. F. E. McLeod, who takes immediate control. Mr. McLeod recently sold his business in Wolsley, Sask., and in selecting another location was impressed with the great possibilities of Alberta, and thinks Lacombe one of the brightest towns in Alberta.

Good dairy cow for sale by Brown & Brown.

Wm. W. Howell, of Stettler, was found dead on a cot in Wolsley's store there on Sunday, having succumbed to tuberculosis. His wife resides at St. John, N.B., where Howell was formerly on the police force, and which place he left to come out west for his health. The one with which the people of Stettler avoided the man, and their absolute disregard for his condition has not added to their reputation for humanity.

How about a windmill for that deep-pit? Save your muscles. See Brown & Brown.

It is announced that the I. C. R. or government owned railway will not only pay its way this year but will make good a deficit from last year. This is quite a feather in the cap of Editor Graham of Brockville, the Minister of Railways, but no doubt he finds it a dead easy proposition to make a railway pay after the experience gained in trying to prevent a newspaper from recording a deficit.

Second hand buggies, demerits, and wagons for sale by Brown & Brown.

Bro. Bruce, arrested for forgery, on Wednesday last, waived preliminary examination and will come up for sentence at the next sitting of the Court. He pleaded guilty to about ten charges. He was taken to Fort Saskatchewan to await trial.

Brown & Brown will trade two mares with colts by their sides for work horses.

When Jock Fraser, charged with a crime under the Charlton Act, came up for preliminary hearing today the case was dismissed. A. M. MacDonald defended Fraser.

The fair daisies in the case has given the police the names of six other admirers, who will probably be rounded up, in a day or two. The Attorney General's department should investigate this case. If ever a child needed to be sent to a reformatory or an asylum, the Adams girl does.

Horses for sale—Good work team, well broken, weight 2300, four and five years old. See Brown & Brown.

The McKanless minstrels struck town Tuesday evening and camped on the stage at Todd's Hall. The show was without question the poorest ever put on in the town, and blatant vulgarity and absolute indecency in the songs added to the disgusting features of the company. What had been advertised as pretty girls proved to be three mulatto women who couldn't even put their skirts on straight. Their parody on "the shade of the old apple tree" would land them in the cooler of New York, while if Adam could only hear their jokes he

would roll over and wonderingly enquire where he had heard them before.—Alx Press.

W. Sage has returned from the Calgary Hospital where he underwent successfully a severe operation. He expects to be around as usual in a week or two.

Children's recital drama on into this week at Mrs. Mobley's.

Miss Helen G. Putnam, teacher of piano, will be in Lacombe on Saturday, Aug. 21st, to arrange about her music class. Pupils intending to take music will please meet at Mrs. MacVay's to arrange about hours as Miss Putnam will be in Lacombe twice a week instead of once a week as last year.

Pipe repairs of all kinds at the Athletic Cigar Store & Billiard Hall. F. McLean, the Pipe Man.

Mrs. Geo. Skinner, of Stettler, is visiting friends in Lacombe.

Parties who are stacking hay within the town limits, are warned that they are breaking one of the town's by-laws, and proceedings may be taken against them.

Mayor Ties, of Stettler, is seriously ill at the residence of J. W. Fortune.

A. C. Milne, former resident of Lacombe, and now residing at Carleton Place, was a visitor here yesterday.

Missing from the rotunda of the Adelphi Hotel, one brown leather valise, name C. E. Cope inside, please return to Hotel or C. E. Cope, Gull Lake.

Miss Mabel Henshaw went to Edmonton on Thursday, where she has accepted a position in one of the large stores there.

Miss Reid, who has been visiting her brother, W. M. Reid, for some months, left yesterday for her home in Ontario.

The Bowden News is the latest addition to the great moral enlightenment of Alberta. It is a new, eight page paper, and is very liberally patronized by the merchants of Bowden.

Reports from all parts of the district are to the effect that the hail storm of last week has not done as much damage as was indicated by earlier reports.

The Militia Department has issued 6,376 South African Veterans' Warrants, and the Interior Department 6,500 Land Warrants. This leaves very few yet to be issued. The price of the warrants has dropped to about \$475 with little demand.

A. W. Kent, the Lacombe Paper-hanger, Decorator, Painter, Grainer, etc., has just received his new stock of wall paper for 1909. Those who are going to have papering done, would do well to come and select their papers while they have the full stock to select from, and name their dates when they want it put on, as I am, expecting a busy season. I sell white lead, linseed oil, putty, varnish, paints etc. 40 years experience.

Rather a high-handed piece of theft occurred on Saturday night when two wagons and teams were unceremoniously seized upon by unknown parties and driven away from town. A single team belonging to Mr. Jacobson and the other to Mr. McLean, who had driven in from the grade. Both wagons contained provisions and other valuable articles. Mr. Jacobson's wagon and team was found later hitched up near town, everything in the wagon having been taken. McLean's was found about 15 miles from town. His wagon had also been looted. The microscans are still at large and at this date the officers have been unable to find any trace of them.—Stettler Independent.

BORN.
McGARVEY—At Morningside, on Friday, Aug. 6th, 1909 to Mr. and Mrs. J. M. McGarvey, a son.

McNIGHTON—At Lacombe, on August 1 to Mr. and Mrs. Wm. McNighton, a daughter.

RIDDICK—At Morningside, on Aug. 7, to Mr. and Mrs. Robert Riddick, a son.

Death of Harcourt Poole.
Word was received on Thursday last, of the death of Harcourt Poole, son of Mr. and Mrs. John Poole, of Central, which occurred at Revelstoke, B. C. on that day. The news came as a severe shock to the relatives of the deceased, who were not aware that he was ill.

Deceased was thirty-three years of age, and was well known in the town and district, having lived here for about nine years prior to going to B. C. Harcourt Poole was a veteran of the South African war, having served his country as a member of the celebrated Strathcona Horse, and with that corps took part in many of the battles of the campaign.

At the close of the war he returned to Lacombe, where he remained a few months before removing to Revelstoke, B. C. where he has made his home ever since.

No particulars of the cause of his death have been received by his relatives to date. The many friends of the deceased extend to the bereaved parents and other relatives their heartfelt sympathy.

Charles Does Some Figgaring.
"Gee," commented our old friend on Railway St. "do you think you will live long enough to see this country settled up? You don't. Well, just take it from me, you won't. See that station over there. It was built just sixteen years ago, and since that time, only one per cent. of the land has been put under cultivation. Just figure out how long it will take to get the whole country under cultivation at that rate. I have been doing a little mental arithmetic by myself, and I find that it will be 10,850 years before that happy state of affairs exists. It is a long time to wait, and I for one don't intend to stay that long. I'm sick of the country now, and with prospects like that the sooner I get away the better. 10,850 years! Gee!"

All Will Be Well.
These are anxious days for the people of Western Canada. Conditions have never been so far from ideal for a splendid crop and the prospects were never better. This is the prevailing sentiment, but while the wheat is in hand and the land areas are like the waves of the sea, the anxious ones are wondering what the weeks that intervene between this and harvest time will bring. So far the prospects are of the best. In regard to the rest of the journey we have the record of the past, in which disaster is but faintly seen, so let us nurse in our hearts a cheerful confidence that all will be well.

Then smile, all Western Canadians and keep smiling until the harvest is reaped. Then smile more than ever.

School Days.
Are rapidly approaching. Call early and make your choice of the necessary stationery and school requisites, copy & exercise books, slates, pencils. We have an extra special line in 15c tablets this session. Its quality and quantity are unequalled in the province. We would also draw your attention that we shall have a full line of school books including the supplementary readings. Do not forget us when you start out to equip yourself for the coming season. We have the goods that are sure to give the utmost satisfaction.

The Good Roads Question.

Edmonton Bulletin: After a long, a varied and a by no means satisfactory experience in the road-making business the Province of Ontario several years ago adopted a new system, or grafted a new feature onto the old system for the purpose of bringing it more into line with the requirements of the case. A road commissioner was appointed for the province. Briefly, his business in life was to get good roads built. The hope of it was to get the local municipal authorities to build them, with aid from the provincial treasury.

The results declare the wisdom of the departure. Hundreds of miles of excellent highway have been constructed throughout the province. The roads are permanent and require little attention from year to year. They are good roads in wet weather as well as in dry. The farmer living near one is always able to reach town in reasonable time, with comfort and with safety to life, horse and vehicle. The cost to the farmer has not been found burdensome and is more than made up to him by the saving in time, trouble, broken vehicles and injured horses. The Whitney government have not flinched at reversing the policy of their predecessors, which may be taken as their testimony that it has made good.

The time would seem to have come for some such departure in Alberta. So far, the road-making business has been left altogether to the local improvement districts, aided occasionally by grants from the provincial treasury. Necessarily this has resulted in variety rather than uniformity in both the method of construction and the nature of the roads. It was the only method, however, available in a new country with scattered population, and credit is due the districts that despite tremendous handicaps they have accomplished so much. Their efforts have necessarily been limited pretty much to the making of earth roads—the cost prohibiting them undertaking highways of more durable and costly character.

The conditions which have precluded the construction of permanent roads, however, are rapidly passing and the way opening for building substantial highways of gravel or crushed stone, good in all weather and for many years. To build such roads of course costs money, more money than the ratepayers of a district can afford to provide in a single year. The great difficulty in the way of their construction heretofore has been that cost could not be spread over a number of years proportioned to the life of the road and thus brought within the tax-paying power of the farmers. This difficulty the provincial government proposes to remove by creating rural municipalities empowered to borrow money for road-building. With such power the authorities of a municipality can lay out a systematic and comprehensive scheme for constructing permanent roads throughout it during several years, and spread the cost over the length of time the work will last. The work will thus become of the nature of street improvement in a city, where the cost of paving, which could not be paid by the property owners in a single year is paid in twenty or thirty annual payments.

In the long run permanent roads are cheaper than the common kind, though costing more to begin with. A "dirt" road, be it ever so carefully made, is good in dry weather only, and to be kept good at all must be frequently repaired at considerable expense. Financially as well as literally the "dirt" road is frequently a sink hole. A properly constructed permanent road of good gravel or broken stone on the other hand though more costly in the first instance requires little attention and is an improvement that lasts for generations. It is in every way fair and wise that the cost of it be levied against the number of years it may be expected to last, and those who will use it in future required to pay their proportion of it.

There is reason, too, for thinking that the movement would be hastened and guided along better lines if a competent road builder with tact and discretion were appointed, whose business it would

be to travel about the province, discussing the road-making question with the local councils and farmers generally, giving lectures if necessary, providing information as to construction and cost, supervising the work and infusing enthusiasm into the movement. The latter would likely be the least difficult of his duties as the farmers may be relied upon to take up the question with earnestness. The commissioner, however, if the right man were secured, could do them incoercible service by disseminating information on the subject and by getting co-operation between districts, to the end of securing improvement first to the main roads and thus in no long period of time establishing a system of permanent and excellent roads throughout the entire province.

The Dominion Loan.

Some apprehension was felt with regard to the outcome on the London market of the loan just issued by the Dominion Government. Canada's credit has been good, and there was never any doubt as to its being otherwise; but no Government of any of the Dominions of the Empire had previously ventured upon so large a loan as that which has been successfully launched by Mr. Fielding. A few days ago cable information was received to the effect that the loan had been successfully underwritten at a good price, and yesterday the cables announced that the cash subscriptions for the loan had been very much better than anticipated.

That so large a loan has been handled successfully and that Canada's credit remains unimpaired is an incident that will afford satisfaction to Canadians generally, but at the same time it does not remove all the difficulties that Mr. Fielding will have to wrestle with during the next few years. Canada has not ceased to grow, and the completion of the Grand Trunk Pacific is not the last great undertaking that Canada will have to enter upon in its rapid material growth. When the new provinces of the West have been provided with the first requisite for their settlement, railway facilities, the activity and enterprise of their population will require further capital outlays that may require the aid of an able minister like Mr. Fielding. Upon him rests the very important duty of preserving Canada's credit, and so far, in his care, it has been maintained in an enviable position. With continued care it will secure for future needs the necessary capital.

Mr. Fielding has approached the London money market at a time when the revenues of the Dominion are steadily increasing as a result of the improvement of trade. The customs receipts for the present financial year to date are considerably greater than they were at the same time last year. There could be no better indication of returning prosperity. Locally some of the largest jobbing houses' trade was greater in June than in the corresponding month of any previous year. With this prosperity comes ample revenue, and with the Dominion's unbounded resources, there is ample justification for the confidence reposed in Canadian Government securities by British investors.

St. Joseph Convent in Red Deer.

The St. Joseph Convent which has been in operation in Red Deer for one year, has given the best satisfaction and has proved to be, in this short while, a very useful institution.

Parents fully appreciate the great care with which the pupils are looked after, the thorough education and good manners which are imparted to them and their rapid progress, which tells better than words, the efficiency of the teaching they receive.

French, music, oil and china painting, embroidery, are taught by Sisters who are specialists in those different branches. A practical course of housekeeping is regularly given every week.

The reopening of the classes will take place on the first of September and Reverend Mother Superior will readily answer all inquiries with regard to terms and other particulars.

If you don't know the Pipe Man you ought to—McLean is his name.

The Parole System.

The Canadian parole system proceeds on the belief that, not every man who is sent to a penitentiary is a hopeless criminal. The soundness of the faith is shown by the fact that while twenty-five hundred men have been liberated on parole in this country only one in fifty has been taken back to jail. The result is also a tribute to the judgment of the officers on whose recommendation the men are liberated. They have to pick the men with knowledge, of course, of their antecedents, behaviour in prison, but also it must be assumed by the exercise of judicious but sympathetic thought as to the probability of their reforming. If mistakes in judgment were many they would become quickly apparent and would lead to the downfall of the officials if not to the abandonment of the system. Fortunately the right men seem to have got in the right places in this case and there has not been any suggestion that the ends of justice were being frustrated or neglected by the parole system, or that, or that this should be dropped. The net result up to date seems to be that 2,450 men who would otherwise have remained in jail for varying terms have been liberated before their time expired and have fulfilled the hopes that they would return to the ways of honesty. The country is ahead the cost of their keep and the value their labor has created. While the system works out this way it will be eminently satisfactory.

THE CALL OF THE LAND.

Dr. Robertson, Principal of the Macdonald College, St. Anne de Bellevue, Quebec, and at one time Dominion Dairy Commissioner, has been speaking at Calgary and Edmonton on his return from the Coast, where he retired from the Presidency of the Dominion Educational Association. His theme was "The Call of the Land." Some of the things he said were:

"In the broadest sense the call of the land was for thought and care and service outside the work one did to get a living for himself. If one had nothing in mind beside the latter he might as well have been born outside civilization. The price of land per foot did not matter; the control we got of it for the purpose of making life fuller was the thing upon which to lay emphasis.

Canada was not a big red patch on the map, a mere part of the empire, but a place for homes, where people thought and worked and felt.

"Agriculture, as its name implies is the highest of cultures—the care of old mother earth, and no other culture gives such grand results. To teach young men and young women the science of agriculture, and its application in every day life in the home and on the farm, is the mission of Macdonald college.

"There is a notion abroad that agriculture is a sort of rough trade. It was not this. There was no culture like it. The best culture that a boy could get was to know the land and to live on it."

He strongly urged the establishment of school gardens, where the teachers and pupils can study nature and cultivate a love and appreciation of the beauties of the world of nature around them on every side. The value of manual training and household science were emphasized side by side with agriculture.

"A million and a quarter of the population were going to school in Canada every morning. What a thing it would be if the thought of those were turned from books to life."

The Baths—Hot or Cold at the skating rink are now open to the public every Saturday afternoon from 1:30 to 11 o'clock. T. Cummings.

NOTICE.

Notice is hereby given that the partnership heretofore existing between Lars Boode, Ole Boode and Gustaf Collins as Hotel Keepers in the Town of Lacombe, was this day dissolved. The said Ole Boode retaining. The business will be carried on by Lars Boode and Gustaf Collins under the name of Boode & Collins by whom all accounts owing to the late partnership are now payable.

Dated at Lacombe in the Province of Alberta, this twenty fifth day of June, A.D. 1909.

Red Deer, August 15th, 1909.
Banff, 16th.
Olea, 17th.
Dulhousie, 18th.
Lacombe, 20th.
Saskatoon, 21st.
Toronto, 24th.
Sledge Creek, 26th.

at 7 o'clock a.m. for the purpose of giving engineers and apprentices an opportunity of qualifying for Certificates under the provisions of the Steam Boilers Act, 1906.

Application for examination should be made to the above named Inspector, or to JOHN STOKES, Deputy Minister, Department of Public Works, Edmonton, Alta., July 20th, 1909.

Subscription Offer

Western Globe.

While "The Western Globe" enjoys a very large circulation in this district, we are not satisfied—we want every resident within a radius of forty miles to take our paper.

We do not believe in giving premiums consisting of other newspapers as an inducement. The Western Globe is the only newspaper we are interested in, and we will make the following offer in an effort to double its circulation.

All NEW SUBSCRIBERS can have the "Western Globe" mailed every week to their address for one year on payment of 50c. JUST HALF PRICE. Present subscribers can, upon paying up arrears, secure the paper for another year for 50c. All subscribers who are paid in advance can also avail themselves of this offer, and secure an extension of one year for 50c.

This offer is only good during the month of August and will not be repeated.

The "Western Globe" contains all the local and telegraphic news—is a ten page paper—and is considered the best country weekly newspaper published in Alberta.

A. Urquhart & Co. Ltd.
Department Stores - Lacombe

MARKET REPORT.

Eggs, 20c. per doz. Butter, 15c. per lb.
We want your produce.

A. Urquhart & Co. Ltd.
Department Stores - Lacombe

A Clearing SALE of Summer Lines

General Dry Goods

Is a long story, and here we can only instance a few of the values that will meet you during the next few weeks in this Department.

Prints at 5c. per yard

is not a leader but just a sample of what is being done. These prints stand the wash tub as well as the highest priced ones.

Prints at .7c, .10 and .12c per yard
are all reduced prices, and there are a splendid range of patterns to select from.

Flannelettes At .10 per yard

for our regular 15c. line of White Flannelette, with splendid body and the best wearing quality. In Striped Flannelettes, reduced prices range from

.7c to .12c per yard

and you never had your hand on such good qualities at these prices.

Shirtings

We have an exceptionally fine stock in this section—shirtings that will give the best wear and service, and that show their strength and quality in a minute, and in their wear. 20c. per yard is a fair retail price for the best of them. Sale prices will range

from .10 to .16 per yard

Sheetings

Bleached and Unbleached the full 2 yards wide, regularly sold at 30c. to 45c. per yard, splendid values then—now the prices are

.23 to .33 per yard

and **EQUAL Reductions** are made in **Pillow Cottons**

Muslins and Linens

and the lighter fabrics are fairly well cleared out, which enables us to give the better bargains on the remainders—they are genuine

Snappy Bargains

Dress Goods

For Children and Ladies' Dresses we have a variety of Fabrics that are down to short lengths, from the sale price of which profit is entirely eliminated. It is your opportunity to get

Extra Values

August is always a quiet month, but notwithstanding, we have to make a determined

and final effort

to get rid of all remainders of Summer lines. It will not pay us to carry them, and this is your opportunity to get more than ordinary values.

Economy

is the key to many of your problems, and buying with us during the next few weeks will result in good, round, substantial economies in every department. We always make good our promises in this respect.

And 'Tween Season's

such as this we are compelled to make sacrifices which it is good business to make.

Railway Fares

will be paid by us on the terms formerly advertised.

And Freight Paid

on Shipments and on Eggs and Butter shipped to us. Your produce is always as good as cash, and we settle all balances in your favor with CASH.

PRIZES

for the Best Letter of suggestions for advertising:

A First Prize of \$10.00
A Second " of 7.50
A Third " of 5.00
A Fourth " of 2.50
In Goods will be given.

Letters should not exceed 250 words and must reach us not later than 11th Sept. Ladies only are eligible to compete as is **THEIR** ideas we are after.

We Look for Really Helpful and Bright Ideas

And we are willing to pay for them. We expect that many who may not secure a prize, will merit some suitable acknowledgement. Never mind grammar, spelling and writing in the letters, for success will not depend on these. We have already received a number of letters containing suggestions we mean to adopt.

Men's Furnishings

In this Department, the New Arrivals of the Very Latest in

Men's Suits

will make brisk business. But we have also put on a Sale of

Men's Negligee Shirts

at attractive prices. The goods are all this season's—we have no old stock.

Ladies' Whitewear

must be hustled out, and before we list you a few samples of the special values, we would say a word about the quality and style of the goods. They are from the most reputable manufacturer in the Dominion, and the finish and style and the value in every garment at regular prices is decidedly superior. At sale prices they are to good to miss

LADIES'

White Underskirts

Our range of these affords a wide selection. They are all put into the sale and we here give you the regular and sale prices, and please do not forget that at the regular prices they were extra good values.

Reg.	.85	1.00	1.40	1.50	1.90	2.25	3.75
Sale	.55	.72	.95	1.05	1.30	1.45	2.55

White Nightgowns

Drawers—Corset Covers

In these three lines we give our two prices also, and as here given will be our clerk's guide in selling you.

Nightgowns

Regular	1.00	1.15	1.50	2.00	2.25
Sale	.72	.78	1.05	1.40	1.50

Drawers

Regular	.40	.50	.55	.65	.75	1.00	1.75
Sale	.28	.35	.37	.42	.55	.68	1.15

Corset Covers

Regular price	.25	.40	.50	1.00
Sale price	.15	.22	.33	.68

In this same section we will have thrown out our remainder of

Children's Dresses

at reductions that will be equally **SNAPPY BARGAINS** to the Buyer.

Ladies' Suits Jackets and Coats

and they will have to go too. We don't want them, which sentiment is the keynote of this whole sale.

LADIES' WAISTS

A bargain in a nice waist is always wantable, sellable and appreciated.

NOW

IS THE TIME TO GET IT.

DEATH OF THE MEDICOES

PROF. WM. OSLER NOW HEADS HIS PROFESSION.

Canadian Who Has Been in France for many years, and who has been a member of the Faculty of Medicine at Oxford University is now head of the profession in his own country.

Prof. William Osler, M.D., F.R.S., F.R.C.P., former professor of medicine at Oxford, England, who recently returned to his native country, is now head of the profession in his own country.

Prof. Osler is the son of the late Dr. John Osler, who was a member of the Faculty of Medicine at Oxford University.

REBUILDING FERNIE.

Ten Months Have Been Big Change in the Town.

Fernie, a small town in the mountains on every side, and seems to hold out the welcoming hand to the stranger, and is a place of great interest.

Almost before he is aware of it, the stranger is in the heart of the town, and is surrounded by the people of the town.

One can hardly credit at first that the town is so small, and that it is so old, and that it is so interesting.

Prof. Osler is the son of the late Dr. John Osler, who was a member of the Faculty of Medicine at Oxford University.

GETS HIGH APPOINTMENT.

Canadians Pleased at Honor to Sir Percy Girouard.

The announcement from London, England, that Sir Percy Girouard, of the Canadian Mounted Police, had been appointed to the rank of Major-General, was met with much interest.

While we are, and will be, busy all this month listing our stock, yet we are not too busy to get into our Fall Shipments of Goods, and at least have a portion of it on display this week.

FARMERS WILL MEET MINISTER FISHER.

At a Meeting in the Opera House on Aug. 16.

Arrangements have now been completed by the Board of Trade and the Agricultural Society for the reception of Hon. Sidney Fisher, Minister of Agriculture for Canada, who will be in Lacombe on August 16th.

The Minister will be met by a deputation consisting of Mayor Sharpe and Coun. McDermid, of the Council; President Palmer and Secretary Carruthers, of the Agricultural Society; Secretary McKenty and W. S. Mooney, of the Board of Trade, and representatives of other organizations.

The Minister will inspect the Experimental Farm, after which he will be taken for a drive through the district, and be shown a farming country which is considered the best on earth.

In the evening Mr. Fisher will address a monster meeting of farmers and others in the opera house. Questions of vital interest to the agriculturists will be taken up.

As this meeting is purely non-political, all, irrespective of party, are cordially invited to attend.

Lacombe Firemen Win at Calgary.

In the first tournament held by the Provincial Firemen's Association of Alberta, the Lacombe brigade made a very creditable showing, winning first in the championship hose reel race and dry test, first in the wet test, first in the ladder race, and second in the hub and hub speed race.

The championship hose reel race is the big event of a firemen's tournament. In this race Lacombe and Red Deer tied in 34.2.5, Calgary finishing in 36 and Pincher Creek in 38.4.5. At the close of the afternoon's program the tie between Lacombe and Red Deer was run off, Lacombe making the run in 35.2.5. Red Deer made the run in 36.3.5, Lacombe thus winning the Municipal trophy, the plum of the tournament, by

1.5 of a second. This trophy goes up every year, unless won by the same team for three years in succession, when it becomes the property of the winning brigade.

The reel race and wet test, carrying with it the Premier Rutherford trophy, was won by Lacombe, which was the only competing team that succeeded in getting Calgary's high pressure water through the hose. The same conditions govern this trophy as apply to the Municipal trophy.

The ladder team race brought out many entries, Montgomery's team, of Lacombe, winning first in 20.1.5, Calgary's best team coming second in 22.3.5. Individual prizes for winning team.

The hub and hub speed race was won by Pincher Creek in 24.2.5. Lacombe second in 25. Red Deer third, Calgary fourth, Medicine Hat fifth.

Successful Students.

Following is a list of pupils of Lacombe high school who successfully passed the Departmental examinations in Standards VI, VII and VIII:

Standard VI—
Lillian F. Archibald.
John Beatty.
John H. Russell.
Leona W. Schade.

R. Emory Shilleto.
Gertrude V. Steele.
Fred G. Young.
Standard VII—
Anna M. Archibald.
Beattie Avery.
Lora Butler.
Jessie M. Glass.
Edna Mooney.
Dora M. Talbot.
Standard VIII—
Lola A. Murphy.

The Lacombe school will reopen on Monday, Aug. 16th. All grading must be completed during the early part of the first week of school.

WILL MAKE LACOMBE DISTRIBUTING POINT.

The Bowman-Sine Lumber Co. Will Put in Spur at Lacombe.

It is learned on reliable authority that steps are being taken by the Bowman-Sine Lumber Co. to make Lacombe the distributing point for all their yards in Alberta. The company is securing yard room in the vicinity of the C. P. R. tracks and will put in a spur as soon as arrangements are completed.

It is also stated that F. L. Smith, distributing agent for the Calgary Brewery will erect a warehouse here if trackage can be secured.

LO! THE POOR INDIAN.

An Indian, no doubt hearing of the big bargains being offered by our merchants, on Thursday last paid the store of A. Urquhart & Co. a visit. In his wanderings around the store he appropriated several articles which took his fancy, among other things a fine raincoat, and a white felt hat. He attempted to sell the coat to a citizen for the very low price of fifty cents, and the citizen informed the police with the result that the noble red man was soon behind the bars. He came up for trial on Friday morning before Magistrate Carruthers, and was handed a sentence of two months hard at the Fort.

Sad to relate, on the same day, that illustrious aborigine, James "Puffer," was found to be drunk and incapable of doing anything but emit war-whoops, and was gathered in by Constable Millar. He was sent away happy with a fine of \$5.00 and costs.

Another case may follow this one. The Indians have been purchasing large quantities of a brand of cider dispensed by Yock Troy, the chink restaurant keeper. This particular brand appears to be a sure joy producer for the Indians and Constable Millar's suspicions have been aroused. He secured a sample bottle of the stuff, which he has sent north for analysis, and if it is found to contain over the

allowance of alcohol, our friend Yock will, in all probability, have to pay \$50 and costs for selling intoxicants without a license.

ENTHUSIASTIC OVER WEST.

Ottawa, Aug. 5.—Hon. Charles Murphy returned to-day from the west and expresses himself as enthusiastic over the progress which that portion of Canada has made since he saw it three years ago. He said to-night, that what appealed to him most as a sign that a great country would be made of it was the schools. The school was the most important building in any little town. They were architecturally beautiful and splendidly conducted schools. "Elevators were everywhere," Murphy was emphatic in his belief that Port Arthur and Fort William together would in process of time, grow to be the greatest city not only in Canada, but in America. He was unstinted in his praise of Vancouver. The secretary of state thinks highly of the nationality of Canada is concerned. These people, he found, adapt themselves quickly to conditions in their new country, and become enthusiastic Canadians. Only in Winnipeg did he hear of the 4th of July being celebrated this year, whereas the 1st of July was celebrated by Americans everywhere, with far more enthusiasm than by people of the east. Nowhere did he hear anything of the imperial defense question. One man had put it to him: "We want box cars and not Dreadnoughts," and this he found to be the spirit of the west. He found the west consistently for low tariff. At the coast he could discover no interest in the question of Japanese immigration at present.

The Great West Permanent Loan Co., which makes a specialty of loans on town and city property, has opened a branch office in Lacombe with Frank Vickerson as agent. J. I. Poole is solicitor for the company, and James Gourlay, Valuator.

Lost—3 buck cream colored silk shirt, on Edmonton trail or in town. Finder please leave at this office.

Fancy work materials of all kinds at Mrs. Mohleys.

Prominent Agriculturists Will Visit Lacombe.

Editors of U. S. Leading Agricultural Journals Will Be Here August 20th.

The Board of Trade is making arrangements for the reception of a party consisting of the editors of the leading Agricultural Journals of the U. S., which will arrive here on August 20th. The party will arrive here at 11 o'clock a.m. and will remain over until 3 p.m. The Board has arranged a reception for the party. After lunch teams will be in readiness, and the party will be driven to the Experimental Farm, and afterwards to other parts of the district.

The party, which is making an extensive tour and looking into the prospects of the west from an agricultural standpoint, includes Prof. Theo. Shaw, of the Minnesota State experimental station; DeWitt Wing, associate editor of the Breeders Gazette, Chicago; Herbert Quick, editor of the Farm and Fireside; Clarence Stamel, editor of the Orange Judd Farmer, Chicago; E. K. Flavelle, editor of Successful Farming; E. S. Bagard, editor of the National Stockman and Farmer, Pittsburg; F. A. McGill, managing editor of Farm Life, Chicago.

Sir John Dryden, minister of agriculture in the three successive governments of Sir Oliver Mowat and Geo. W. Ross, died at Toronto on Thursday. He is survived by his widow, one son and five daughters. He was 69 years of age and was ill for a period extending over nearly fifteen months, and his demise was not, therefore, unexpected.

The state of Alabama goes on the "dry" list this week. All hotels, saloons, breweries and distilleries must close as a consequence of the law just being put in force.

Calgary is cut out the agricultural college, one of its chief arguments being that an institution of this kind should be located near a large city.

John Soles, Photographer, phone 71.

I Outfit Men from HEAD TO TOE!!

When you come here you may expect to find the finest range of masculine raiment this town has ever known. Sounds like blowing, but I am prepared with the showing. My new fashioned ready-made suits as well as those cut to your measure and specification, are pronounced by all dressy men to be without equal—but let's have your opinion.

Furnishings & Hats

The furnishings and hats are in keeping with the suits—THE BEST—absolutely the best that master-makers produce. When will you be in?
